## Description

Whilst keywords are not used by many search engines they can still be useful. Spy is a great tool that will take the guesswork out of Search engine optimisation.

From their website

## Turn data into customers

Spanning 7 billion results across 109 million domains, our data brings visibility and insight to the top strategies used by industry leaders, as well as more-relatable smaller competitors. We've done the hard work for you, allowing you to organise ideas into actionable direction and increase traffic and revenue from day one.
